

Certified eMINTS Educators

The Missouri Department of Elementary and Secondary Education Office of Instructional Technology and the eMINTS National Center are pleased to announce listings of Missouri educators who have satisfactorily completed the program certification requirements for the following three eMINTS programs: **Comprehensive eMINTS Teachers**, **eMINTS4All Teachers**, and Professional Development for **Educational Technology Specialists (PD4ETS)** – and certified eMINTS Instructional Specialist.

eMINTS provides a research-based approach to organizing instruction that can be implemented in any subject area at any level. The eMINTS instructional model enables educators to create classrooms where all students are motivated to succeed socially and academically, fully incorporate technology investments into teaching and learning, complement existing curriculum with critical-thinking requirements found in national, state, and local curriculum standards, and build enthusiasm and creativity into daily teaching.

The certification process helps identify and recognize educators who completed their intensive two-year professional development programs and satisfactorily met all program requirements (including a portfolio review). Certification is performance based and indicates the person has demonstrated the knowledge, skills, and abilities to implement the eMINTS instructional model.

Complete information and certification requirements for the programs may be found at:

- Comprehensive eMINTS and eMINTS4All: <http://www.emints.org/resources/portfolio/>
- Professional Development for Educational Technology Specialists (PD4ETS): <http://www.emints.org/programs/pd4ets/faq.shtml> (see item, # 12) – certified eMINTS Instructional Specialists may or may not have had experience delivering eMINTS professional development programs depending on their individual circumstances at the time of certification

The following documents list certified eMINTS program participants as of December 31, 2009. Documents include one overall listing and separate, program-specific listings. The district designation or organizational affiliation listed for a participant indicates the district or organization in which the participant was employed at the time of certification – note that designations may change as participants move, change district or organization affiliations, or retire.
